EXPERIENCE–

PS Digitise LLP

Trichy, India

Junior React Developer (Intern)

May 2024 to Aug 2024

- Outcome 1 : In the initial stage, I learned independently through the internet without any senior support. During that time, I discovered my strengths
- Outcome 2: I created a sample job portal website with both frontend and backend development using React.js for the frontend and Node.js for the backend. During this process, I also improved my problem-solving skills.
- Outcome 3: During my internship, I developed a chatbot with both frontend and backend functionality using React and Node.js. This chatbot was integrated into the real-time Vysyamala project and proved to be helpful.
